

Robbie Perkins
Council Member, District 3
City of Greensboro

Planning for the future, getting to the root of crime problems, and continuing with strong housing initiatives are all priorities for Council Member Perkins, who was elected to the City Council in 1993.

"I hope to build consensus both on the Council and in the community. We have a responsibility as elected officials to balance the need to grow with the need to protect the environment, while providing citizens with an efficient and responsible government. Only by working together can we make Greensboro a better place to live and work."
